

01

City of Redmond, Downtown Circulation Options

Existing Redmond Way/Cleveland Street Couplet

9

Opportunities

No right of way or circulation changes required

Challenges

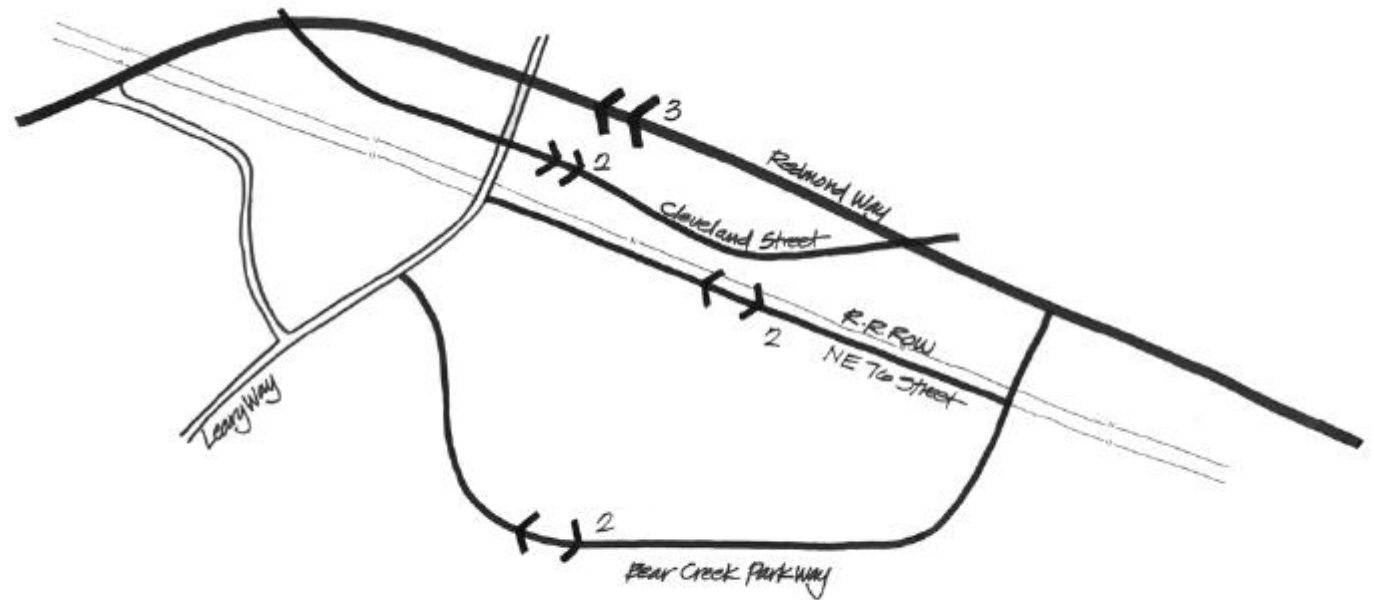

High volume one-way couplet on Redmond Way and Cleveland pose a challenge to creating "main street" environment.

One-way configuration reduces access on Redmond Way and Cleveland

Cleveland Street awkward for through movement.

Bear Creek Parkway has limited connections- focus on local traffic

Description: Existing Redmond Way Cleveland couplet is focus of through traffic. Bear Creek Parkway providing some by-pass opportunities. NE 76th Street as local access only with no direct connections to Redmond Way.
